

Priya Saha

Founder & CTO / HelioSynth Pvt. Ltd.

 priyasahasawhney2223@gmail.com

 [LinkedIn](#)

Artificial Intelligence and Data Science undergraduate with hands-on experience in machine learning, full-stack web development, and production-level systems. Founder & CTO of HelioSynth Pvt. Ltd., actively involved in designing and developing web applications and contributing to technical planning and execution. Worked on live educational platforms through technical roles, building ML-based prediction tools, enhancing PHP/Laravel websites, and supporting deployment workflows. Strong collaborator with leadership experience in technical clubs, hackathon organization, and design initiatives, bringing a balanced skill set across technology, problem-solving, and teamwork.

Education

B.Tech Guru Gobind Singh Indraprastha University (GGSIPU), New Delhi	2023-27
- Current CGPA: 9.282 (6th Semester) - Major in Artificial Intelligence and Data Science	
Class XII New Delhi Public School, New Delhi	2023
Achieved 92.6% aggregate across Physics, Chemistry and Mathematics	

Work Experience

Founder & CTO, HelioSynth Pvt. Ltd., Delhi	July 2025-Present
- Defined the technical vision and led development initiatives, including designing and building the official company website. - Oversaw early-stage product planning, technology stack decisions, and coordination between design and development efforts.	
Intern, Einstein Classes Pvt. Ltd., Delhi	July 2025 - August 25
- Enhanced and maintained the company's PHP-based website, implementing UI improvements and resolving frontend and backend issues. - Developed ML-based student performance and rank prediction models, contributing data-driven insights and academic tools.	
Technical Member, Einstein Classes Pvt. Ltd., Delhi	August 2025 – Present
- Continued development and maintenance of the PHP-based production website, implementing feature enhancements and bug fixes. - Worked on payment module integration and deployment-related updates for live system release.	

Projects

Einstein Classes Official Website (Web Development – PHP/Laravel)
- Contributed to backend development and feature enhancements on the live production website. - Worked on routing, database-driven content, and UI improvements using PHP/Laravel interactions

HelioSynth Official Website (Full-Stack Development)

- Designed and developed the official startup website using React (TSX) with a scalable component-based architecture.
- Implemented responsive UI and performance-focused design aligned with product branding.

Mosquito-Borne Disease Detection Platform | iGEM Startups BioHackathon 2026

- Conducted and analyzed 20+ microfluidic experimental iterations for a disease detection platform integrating synthetic biology and AI concepts.
- Selected among the Top 25 teams in the iGEM Startups BioHackathon 2026.

Student Rank & Score Prediction System (Einstein Classes Pvt. Ltd.)

- Developed a system to estimate NEET & JEE ranks and scores using historical exam data.
- Applied statistical analysis and machine learning techniques to provide personalized performance insights for students.

SKILLS

- **Programming Languages:** Python, C, Java, R, JavaScript, PHP
- **Web Development & Frameworks:** HTML, CSS, Tailwind CSS, React (TSX)
- **Data Science & Machine Learning:** Pandas, NumPy, Scikit-learn, Data Analytics, Probability & Statistics, Machine Learning
- **Core Computer Science Concepts:** Data Structures & Algorithms, Database Management Systems, Operating Systems, Software Engineering
- **Academic Coursework:** Big Data Analytics, Theory of Computation, Blockchain Technology, Internet of Things (IoT), Natural Language Processing (NLP)
- **Soft Skills:** Leadership, Teamwork, Communication, Problem Solving, Analytical Thinking

LEADERSHIP EXPERIENCE

Co-Lead (Design), AWS Cloud Club

May 2024 – Present

- Managed design and content for club events, leading a team of designers.
- Delivered high-quality promotional materials on time.

Design Team Member, GDGSC GGSIPU

February 2025 – November 25

- Created 30+ design assets for workshops and competitions.
- Ensured brand consistency across all initiatives.

Sponsorship Team Member, GDGSC GGSIPU

January 2025 – Present

- Liaised with 10+ corporate partners to secure resources and funding.
- Supported smooth execution of club events.

Hackathon Organizer & Creative Lead, Vespera – AWS Cloud Club, GGSIPU

October 2024

- Assisted in planning and coordinating 5+ events.
- Supported participants and ensured smooth event execution.

CERTIFICATES AND COURSES

Full Stack Development Certification – Coding Blocks

- Hands-on experience in front-end, back-end development, and databases.
- Built end-to-end web applications with real-world workflows.

Full Stack Web Development, Udemy

- Completed projects using HTML, CSS, JavaScript, Node.js, and databases.
- Gained practical experience in responsive UI and backend logic.
