PROFESSIONAL SUMMARY

B.Tech. Artificial Intelligence and Data Science undergraduate at Guru Gobind Singh Indraprastha University with a CGPA of 9.28/10. Hands-on experience in full-stack web development, machine learning, and data analytics. Developed and maintained live web applications using PHP, Laravel and React, including payment gateway integration, debugging, and deployment support. Strong foundation in Python, JavaScript, Data Structures and Algorithms, DBMS, and Software Engineering. Experienced in building practical technical solutions and collaborating effectively in team-based projects.

KEY EXPERTISE

Data Structures and Algorithms Python PHP React.js HTML CSS Laravel Database Management Systems
Software Engineering Git GitHub AWS Machine Learning Data Analytics JavaScript OOPS

EDUCATION

University School of Automation & Robotics (USAR)

2023 - 2027

B.Tech. - Artificial Intelligence & Data Science | CGPA: 9.28 / 10

New Delhi Public School Block A Vikas Puri

2023

12th | CBSE | Percentage: 90 / 100

St Marks Girls Senior Secondary School, New Delhi

2021

10th | CBSE | Percentage: 83.20 / 100

INTERNSHIPS

Einstein Classes Pvt. Ltd. | E-Learning / Edtech

01 Jul, 2025 - 31 Jul, 2025

Machine Learning Engineer Intern

Key Skills:

Statistical Analysis Data Visualization Machine Learning Exploratory Data Analysis (EDA) Predictive Modeling
Data Analytics Python Data Preprocessing

Worked as a Machine Learning Engineer Intern at Einstein Classes Pvt. Ltd., where I developed student performance prediction systems for NEET, JEE Main, and JEE Advanced aspirants. Collected, cleaned, and analyzed historical examination data from NTA and other relevant sources to create structured datasets for predictive modeling. Implemented machine learning algorithms and statistical techniques to estimate expected ranks and scores based on student performance metrics. Designed analytical dashboards and visualizations to help students compare their performance with class toppers, average performers, and peers. Conducted data preprocessing, feature engineering, exploratory data analysis, model evaluation, and model optimization to improve prediction accuracy and reliability. Collaborated with technical teams to transform educational data into actionable insights.

IBM SkillsBuild | Education

24 Jun, 2024 - 05 Aug, 2024

Data Analytics Intern

Key Skills:

Data Cleaning and Preprocessing Exploratory Data Analysis (EDA) Machine Learning Statistical Analysis Python
Data Interpretation Data Visualization Problem Solving Data Analytics

Successfully completed a 6-week IBM SkillsBuild Summer Internship Program in Data Analytics in collaboration with CSRBOX. Gained hands-on experience in data analysis, data visualization, statistical techniques, and data-driven decision making. Worked with datasets to perform data cleaning, exploratory data analysis, and interpretation of insights. Developed practical understanding of analytics workflows and industry applications through project-based learning and structured training modules. Enhanced problem-solving, analytical thinking, and data interpretation skills while applying concepts to real-world business scenarios.

PROJECTS

macOS-Inspired Portfolio

01 Jul, 2026 - 31 Jul, 2026

Team Size: 1

Key Skills:

React.js

JavaScript

GSAP

Project Link: <https://priyasahaportfolio.vercel.app/>

Developed an interactive macOS-inspired portfolio using React and Vite, featuring draggable application windows, Finder-style navigation, Dock interactions, gallery, terminal, resume viewer, and responsive layouts. Implemented reusable UI components and interactive desktop-style experiences to create an immersive portfolio interface. Maintained the project using Git/GitHub and deployed the application for public access.

Einstein Classes website

01 Aug, 2025 - 20 Jul, 2026

Team Size: 1

Key Skills:

PHP

Laravel

Web Development

Backend Development

Frontend Development

Database Management Systems

Payment Gateway Integration

Website Maintenance

Bug Fixing and Optimization

Production Deployment

Software Development

Github

Project Link: <https://einsteinclasses.com/>

Contributed to the development and enhancement of the Einstein Classes official website, transforming it into a commercial-grade educational platform. Developed and integrated multiple frontend and backend features using PHP and Laravel, including dynamic test detail pages, database-driven content modules, and a complete cart management system. Successfully integrated the Razorpay payment gateway to enable secure online transactions and streamline the student enrollment process. Worked on feature implementation, bug resolution, database interactions, deployment support, and performance improvements to enhance user experience and platform reliability. Collaborated with the technical team to deliver scalable solutions for a live production environment serving students and educators.

POSITIONS OF RESPONSIBILITY

Design Team Member (Prototype Team), GameDev Guild Students Club (GDGSC)

Selected as a Design Team Member in the Prototype Team of GDGSC, USAR, GGSIPU. Contributed to creative assets, digital artwork, and visual content for club initiatives. Collaborated with team members on branding, promotional activities, and user-focused visual communication using Figma and Photoshop.

Design Team Co-Lead, AWS Cloud Club GGSIPU

Served as Design Team Co-Lead at AWS Cloud Club GGSIPU, leading creative and branding initiatives for technical events, workshops, hackathons, and community programs. Designed the club website UI and other digital assets using Figma, while coordinating with club leadership and cross-functional teams on promotional materials, social media creatives, and event branding. Guided design activities and contributed to the successful execution of multiple student-led events.
