

# Priya Saha

## Founder & CTO / HelioSynth Pvt. Ltd.

priyasahasawhney2223@gmail.com

[LinkedIn](#)

Artificial Intelligence and Data Science undergraduate with hands-on experience in machine learning, full-stack web development, and production systems. Founder & CTO of HelioSynth, with experience in technical planning, product development, and deployment. Worked with Einstein Classes on ML-based student performance, score, and rank prediction systems, and contributed to live PHP/Laravel platforms involving payment integration and database management. Strong foundation in Python, machine learning, React, PHP/Laravel, databases, and software development.

### Education

**B.Tech** | Guru Gobind Singh Indraprastha University (GGSIPU), New Delhi

2023-27

- Current CGPA: 9.24 (6<sup>th</sup> Semester)
- Major in Artificial Intelligence and Data Science

**Class XII** | New Delhi Public School, New Delhi

2023

- Achieved 92.6% **aggregate** across Physics, Chemistry and Mathematics

### Work Experience

**Founder & CTO, HelioSynth Pvt. Ltd., Delhi**

*July 2025-Present*

- Defined technical direction and led development initiatives, including technology-stack decisions and development of the company's official website.
- Translated early product requirements into working digital solutions and coordinated design and development efforts in an early-stage environment.
- Achievements: 2nd Position – IISc × Keio Indo-Japan Conference; 2nd Runner-Up – Nebius × NVIDIA Hackathon; invited to present DEV AI at NVIDIA, Santa Clara.

**Machine Learning Engineer Intern, Einstein Classes Pvt. Ltd., Delhi**

*July 2025 - August 25*

- Developed a student performance analysis and rank prediction system for NEET, JEE Main, and JEE Advanced aspirants using Python and historical examination data.
- Created and structured examination datasets using NTA and other relevant sources; performed data preprocessing, EDA, statistical analysis, and feature analysis.
- Applied and evaluated K-Nearest Neighbors (KNN) and Linear Regression for score/rank estimation and created dashboards comparing student performance with toppers, average performers, and peers.

**Technical Member, Einstein Classes Pvt. Ltd., Delhi**

*August 2025 – Present*

- Developed and maintained a live educational platform using PHP and Laravel, implementing dynamic test pages, database-driven modules, and cart functionality.
- Integrated Razorpay payment gateway and worked across frontend, backend, database interactions, and payment workflows.
- Resolved production issues, implemented feature enhancements, and supported deployment and testing for the live platform.

### Projects

**Einstein Classes Official Website (Web Development – PHP/Laravel)**

- Contributed to backend development and feature enhancements on the live production website.
- Worked on routing, database-driven content, and UI improvements using PHP/Laravel interactions.

### HelioSynth Official Website (Full-Stack Development)

- Designed and developed the official startup website using React (TSX) with a scalable component-based architecture.
- Implemented responsive UI and performance-focused design aligned with product branding.

### Mosquito-Borne Disease Detection Platform | iGEM Startups BioHackathon 2026

- Conducted and analyzed 20+ microfluidic experimental iterations for a disease detection platform integrating synthetic biology and AI concepts.
- Selected among the Top 25 teams in the iGEM Startups BioHackathon 2026.

### Student Rank & Score Prediction System (Einstein Classes Pvt. Ltd.)

- Developed a system to estimate NEET & JEE ranks and scores using historical exam data.
- Applied statistical analysis and machine learning techniques to provide personalized performance insights for students.

### macOS-Inspired Portfolio (Full-Stack Web Development)

- Developed an interactive macOS-inspired portfolio using React.js and Vite, featuring draggable windows, Dock interactions, Finder navigation, and a terminal.
- Implemented responsive UI and animations using GSAP, and deployed the project using Vercel.

## SKILLS

- **Programming Languages:** Python, C, Java, R, JavaScript, PHP
- **Web Development & Frameworks:** HTML, CSS, Tailwind CSS, React (TSX)
- **Data Science & Machine Learning:** Pandas, NumPy, Scikit-learn, Data Analytics, Probability & Statistics, Machine Learning
- **Core Computer Science Concepts:** Data Structures & Algorithms, Database Management Systems, Operating Systems, Software Engineering
- **Academic Coursework:** Big Data Analytics, Theory of Computation, Blockchain Technology, Internet of Things (IoT), Natural Language Processing (NLP)
- **Soft Skills:** Leadership, Teamwork, Communication, Problem Solving, Analytical Thinking

## LEADERSHIP EXPERIENCE

### Co-Lead (Design), AWS Cloud Club

*May 2024 – Present*

- Led design initiatives and coordinated a team of designers for technology-focused events and activities.

### Design Team Member, GDGSC GGSIPU

*February 2025 – November 25*

- Created 30+ design assets for workshops and competitions and maintained visual consistency across initiatives.

### Sponsorship Team Member, GDGSC GGSIPU

*January 2025 – Present*

- Liaised with 10+ corporate partners to support sponsorship and resource requirements for club events.

## CERTIFICATES AND COURSES

### Full Stack Development Certification – Coding Blocks

- Hands-on experience in front-end, back-end development, and databases.
- Built end-to-end web applications with real-world workflows.

### Full Stack Web Development, Udemy

- Completed projects using HTML, CSS, JavaScript, Node.js, and databases.
- Gained practical experience in responsive UI and backend logic.
